

## **Combat Pistol Course of Fire**

This event is held at:

243 Molleystown Road, Pine Grove, PA 17963

This is a club level match that is not affiliated with any of the common shooting sports. The idea is for participants to take away defensive shooting skills. Shooters will shoot stages that are somewhat familiar with scoring, rules, and target selection that is more grounded in a defensive mindset.

Combat pistol is designed to integrate concepts from real street carry into competitive shooting. We do not restrict things like magazine capacity, equipment on the firearm, carry methods or locations (so long as they are safe). We do require concealment as well as a realistic carry setup. If you can honestly say you carry this gear on a daily basis feel free to bring it with you.

Round count is generally 200 but bring 250 to be safe.

Shooters must have eye and ear protection on the ranges at all times.

Match is time plus points.

All range commands and instructions will be followed.

Shooters under the influence of narcotics, alcohol, or mind-altering substances will not be permitted.

Bring at least 3 functioning magazines

There will be a comprehensive safety brief prior to hammer down. During which the stages and types of skills required will be covered. If at any point a shooter is uncertain of their level of ability to maintain a safe environment, that condition needs to be reported to a Range Officer immediately.

We run a cold range meaning that prior to match start all guns will be cleared. If you arrive with a loaded carry gun, please ask a RO how to proceed.

Unsafe firearm handling will result in a DQ. There will be no refunds for a DQ situation.
